WORKOUT DESCRIPTION

ADULT DIVISIONS · FLOW & STANDARDS

INDIVIDUAL

On the call of **3, 2, 1 GO!!** the athlete completes a **150m Run**, then **40 Wall Balls**. After another **150m Run**, the athlete completes **40m of Burpee Broad Jump** (4 × 10m increments). Another **150m Run** leads into **40m of Sandbag Lunges** (4 × 10m increments). The next **150m Run** is followed by **80m Farmers Carry** (8 × 10m increments) with 2 DBs. The final **150m Run** closes into the row — **500m for men / 400m for women**. For time to stop, the athlete must run over the finish line.

DOUBLES

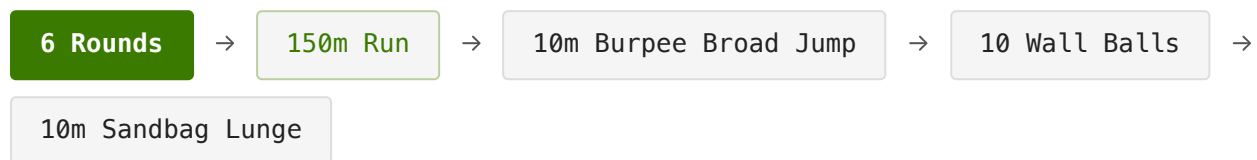

On the call of **3, 2, 1 GO!!** both athletes run **150m together (synchro)**, then share **60 Wall Balls**. Another **150m synchro run** leads into **60m Burpee Broad Jump shared** — *one athlete must finish 30m before athlete 2 can go*. Another **150m synchro run** into **60m Sandbag Lunges shared** (same relay rule). Another **150m synchro run** into **80m Farmers Carry shared**. The final **150m synchro run** leads into the row — **1000m for men / 800m for women**, split however the team decides. Time stops once both athletes run over the finish line.

Synchro rule: both athletes must move together on every run segment. Sharing rules apply to all distance-based stations (Burpee Broad Jump, Sandbag Lunges) — one athlete must finish their portion before the partner can start.

RELAY TEAM WORKOUT

TIME CAP · 20 MIN

RELAY — 6 ROUNDS (PER ROUND)

AFTER 4 ROUNDS — CLOSING ROW

300m / 250m Row (each athlete)

DESCRIPTION

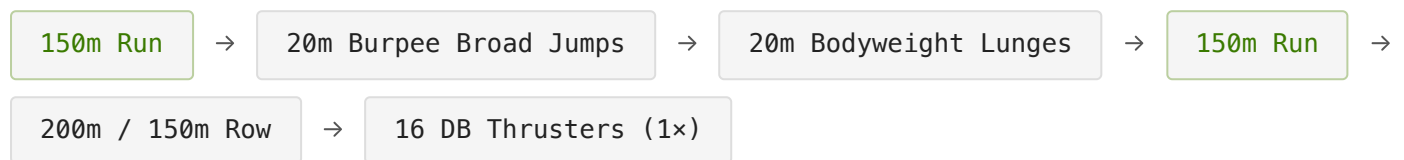

On the call of **3, 2, 1 GO!!** Athlete 1 completes one full round: **150m Run · 10m Burpee Broad Jump · 10 Wall Balls · 10m Sandbag Lunge**. Once Athlete 1 is done, Athlete 2 completes a full round in **reverse order**: 150m Run · 10m Sandbag Lunge · 10 Wall Balls · 10m Burpee Broad Jump — that completes **2 rounds**. Repeat alternating for rounds 3 and 4.

After Athlete 2 finishes the burpee broad jump of round 4, Athlete 1 rows **300m for men / 250m for women**, then Athlete 2 completes the same row. Time stops once both athletes complete their row and run over the finish line.

Every rep that is not completed within the time cap will be added to your final time and will become your score. **Every 50m on the run and the row counts as 1 rep.**

Example: if the athlete did not complete the last run and the 500m row, he/she missed 13 reps — so the score would be 20:13.
